

## DRAINAGE CHANNEL HAURATON\_5066 HIGH-RESISTANCE SPHERICAL GRAPHITE CAST IRON, GGG50 C250 EN 1433

### General Information

Drainage channel "HAURATON 5066" is made of cast iron and used to evacuate rainwater and roadside water through sewers. Scope: industrial enterprises, anchor stops, warehouses.

### 1. General information and specifications:

Length: 498 mm

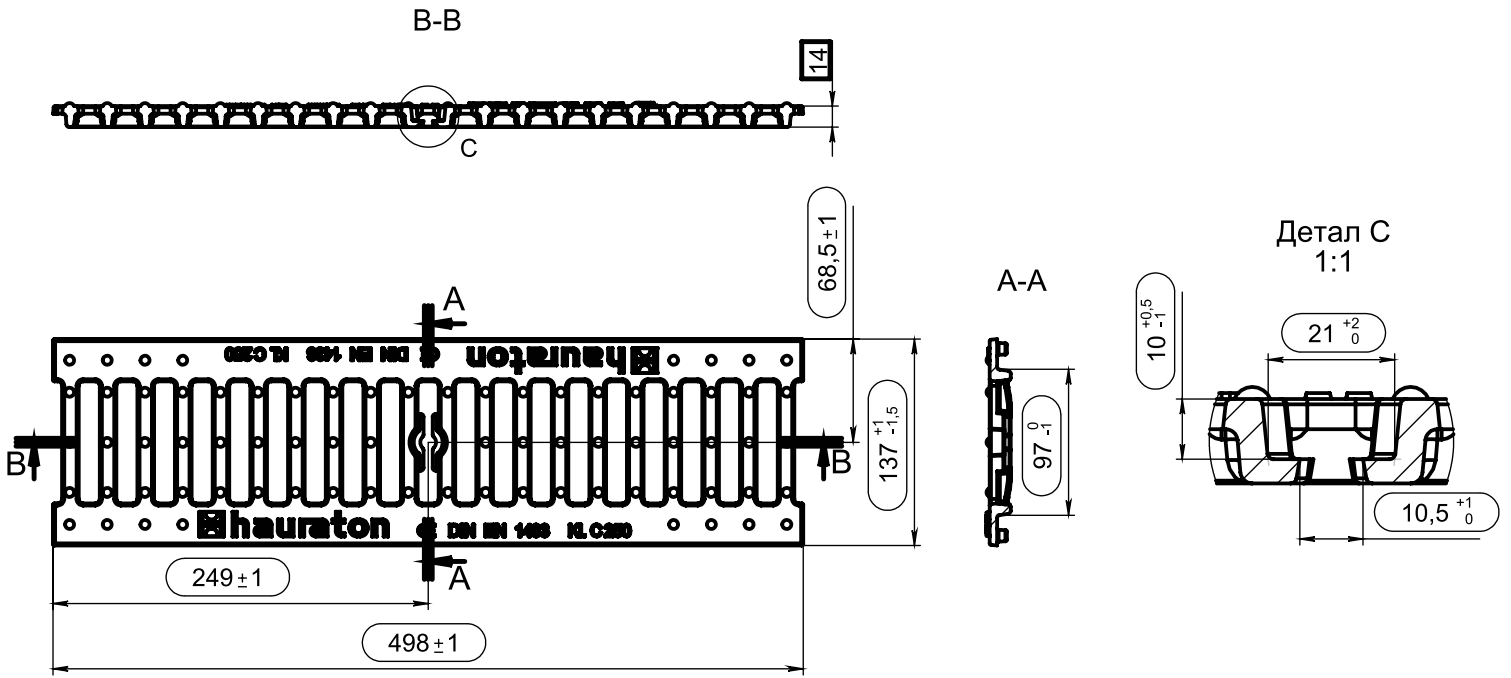

Width: 137 mm

Height: 14 mm

Load class: 250 kN

Material: high-resistance spherical graphite cast iron GGG50.

Weight: 2.77 kg

2. Supply set	
DETAIL	QUANTITY
Grill	1
Passport	1

\*It is allowed to prepare 1 passport for a group of product of not more than 10 pieces.

### 3. Warranty obligations:

The warranty period is 3 years from the date of commissioning, but not more than 5 years from the date of shipment from the enterprise.

Assigned service life- 20 years

Storage conditions of manhole covers—group Ж 1 GOST 15150

The limiting criterion is the presence of damage (cracks, debris, etc.)

### 4. Usage information:

At the end of its service life, the product is not dangerous for life, human health and the environment. The use of a rainwater grill can be done in any way, without restrictions.

\*Note: Assignment of engineering networks:

- Domestic and industrial sewerage;
- Plumbing;
- Fire hydrant;
- Rainwater sewerage;
- Heating line;
- Gas line;
